## Visimed App

We encourage you to download the Visimed application that will let you:

search for doctors, review available dates and make an appointment (general and specialist)

search for our facilities and access to information such as address, telephone number, list of doctors working in the clinic

search for the most important information about medications you are taking e.g. the name, manufacturer, quantity and name of the active substance, a list of cheaper substitutes and drug-drug and drug-food interactions

order medicines in pharmacies and collect them without queuing

check prices
