On-line abstract submission and registration on the conference website

<http://www.ur.edu.pl/multifunctional-farming>

Dec 15, 2024 – Deadline for the Early Bird Conference Registration

Amongst the topics discussed:

- Protecting nature against, despite, or with farmers?
- Future cultural landscapes: vegan-friendly and livestock-grazed?
- The traditional knowledgeable peasants: what are their messages for us?
- Should farmers pay double price for global changes?
- Subsidising food production: helping the big to grow bigger and supporting the small?
- Future of food systems: further globalisation or restoring sovereignties?
- Can urban farming really help feed an increasingly urban world?

Inspiring lectures will be given by the renowned scientists – keynote speakers, including:
Prof. **Mauro Agnoletti** (Florence University, Italy), Prof. **Erle Ellis** (University of Maryland, USA) Prof. **Patrick Joyce** (Emeritus Professor at Manchester University, GB), Prof. **Zsolt Molnár** (Centre for Ecological Research, Hungary), Prof. **Piotr Tryjanowski** (Poznań University of Life Sciences, Poland & Institute of Advanced Sciences TUM Munich, Germany).
