We look forward to receiving applications, especially from young researchers interested in the topics of interpreting, specialized and literary translation, didactics of translation, and other interdisciplinary research.

The purpose of our conference is to promote the scientific development of students and PhD students, to show the diversity of their research in different scientific centres, and to exchange views and experiences related to the above topics.

In celebration of our 5th-anniversary conference, which emphasizes intercultural dialogue, we are excited to feature workshops on Japanese culture. Additionally, the event will include the online premiere of a haiku poetry collection in Polish, German, and English.

Students and PhD students interested in participating in the conference are kindly asked to send an abstract of up to 300 words in English or German language via the registration form by **24 February, 2025**:
